

Safety Alert 06-10

Safe Use, Storage and Handling of Alcohol Based Waterless Hand Sanitizer

9 June 2006

Due to the increased use of alcohol based hand sanitizers, the following guidelines are provided for safe use and handling:

Safe Use:

- ✓ **Eye Contact:** May cause mild eye irritation.
- ✓ **Skin Contact:** No irritation or reaction expected. May cause irritation to broken skin.
- ✓ **Inhalation:** May produce anesthetic effects and feeling of euphoria. Prolonged overexposure can cause rapid breathing, headache, dizziness, narcosis, unconsciousness, and death from asphyxiation, depending on concentration and time of exposure.
- ✓ **Ingestion:** May cause nausea and vomiting.

First Aid:

- ✓ **Eye Contact:** Do not rub eyes. Flush eyes thoroughly with water for at least 15 minutes. If condition worsens or irritation persists, contact a physician.
- ✓ **Skin Contact:** If irritation develops wash with soap and water.
- ✓ **Inhalation:** Remove to fresh air.
- ✓ **Ingestion:** Do not induce vomiting, transport to a medical treatment facility.
- ✓ **Spills:**
 - ✓ Flush surfaces with water.
 - ✓ Pick up excess with absorbent material and discard in accordance with regulations.
 - ✓ **CAUTION - In case of a spill, sanitizer WILL cause slippery surfaces.**

Storage and Handling:

- ✓ Keep containers sealed.
- ✓ Use older containers first.
- ✓ Avoid freezing conditions.
- ✓ Avoid temperatures above 120°F.
- ✓ Product is **flammable**, avoid contact with ignition sources.
